(delta Q1.26-Q1.25)

Note: Eurostat; Europa; Piraeus Economic Research

- The Greek economy is expected to maintain a positive trajectory, supported by a credible fiscal framework, the consistent implementation of reforms and sustained investment mobilization
- As the RRF winds down, Greece is expected to maintain growth momentum through continued absorption of EU funds - NSRF 2021-2027, the Multiannual Financial Framework 2028-2034, new European funds and the launch of the €23bn National Development Plan 2026-2030
- With a rapidly decreasing Debt to GDP ratio (~70ppts compared to the record level during the pandemic), Greece achieved the highest rate of debt reduction in the EU, at an ultra low servicing cost of 1.8% per annum
- Record travel receipts of €8.8bn in Jan-Jun 2026, following a strong 2025 with €7.7bn for the same period, reinforcing the positive momentum in tourism activity
- Raising labor force participation and enhanced productivity, drive unemployment rate to 7.9% in Q2.26, a new cycle low
- Inflationary pressures due to higher energy prices are expected to weigh on the Greek economy in 2026, although expected to decelerate in 2027

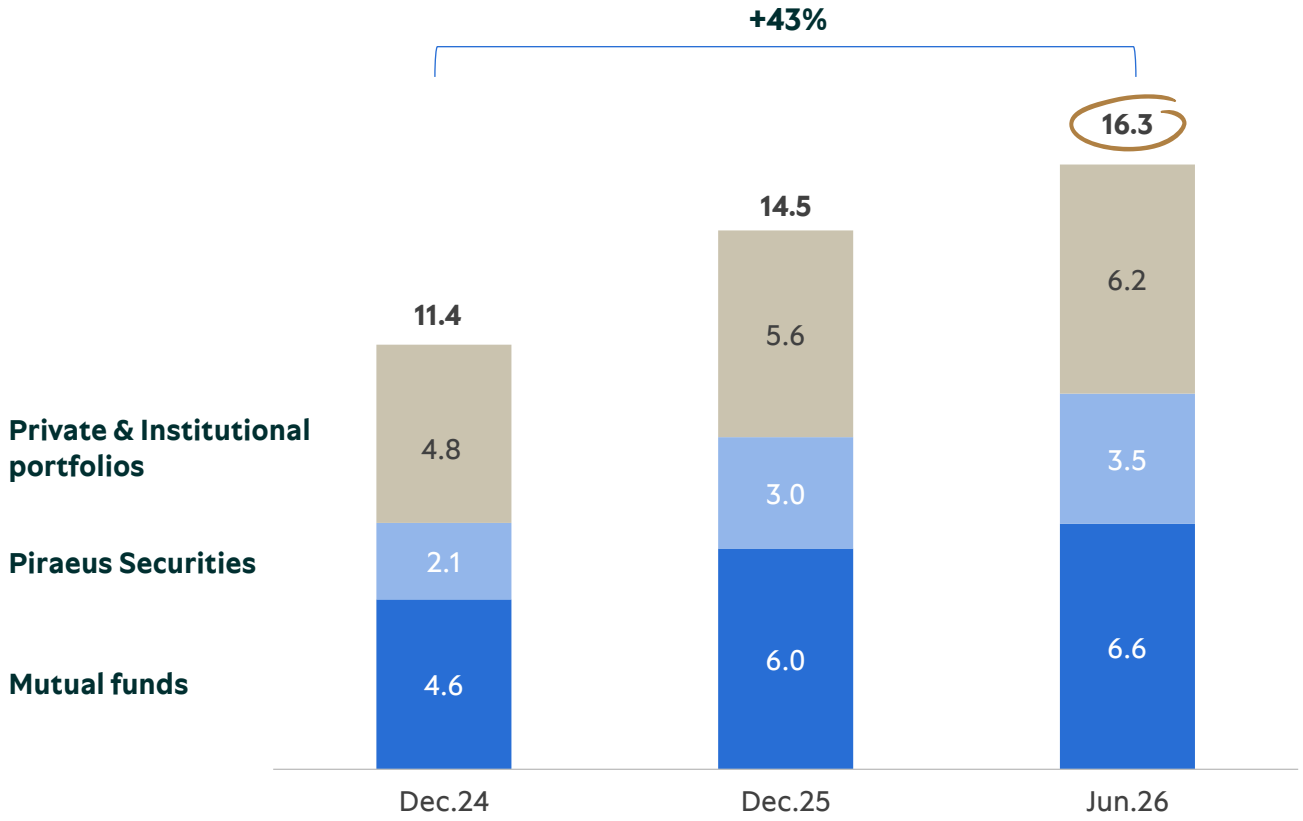
Q2.26 highlights

- Full-scale Group integration preparations underway, targeting early 2027
- Ongoing strategic initiatives to capture additional upside from untapped growth pockets
- New P&C core system successfully completed its full rollout for Motor along with Agent's Portal, enabling operational simplification, improved business support
- Launched 'Simply Forward', a company-wide initiative to engage all employees in identifying, recognizing and scaling simplification
- Data & AI accelerating from foundations to delivery – Chief Data & AI organization and operating model in place, with governance aligned to the EU AI Act and Piraeus Group's Responsible AI standards and AI Hub
- Ongoing progress towards a fully integrated operating model, with enhanced governance, risk management and regulatory compliance framework

Note: GWP (Gross Written Premia), P&C (Property & Casualty), (definitions on the APM section / Glossary and disclaimer on the Disclaimer section); H1.26 and H1.26B pre-tax profit have been adjusted for real estate sales; In Q2, Ethniki Insurance redeemed a Restricted Tier 1 bond amounting to €50mn, Pro forma refers to the two new issuances (€100mn Tier 2 and €100mn RT1) on 3 September 2026, and the expected redemption of an outstanding 10-year Tier 2 instrument of €125mn

WAM: Sustained AuM growth and strong net inflows of €1bn, already meeting 2026 target



- **Strong net inflows of €1.0bn in H1; strong positive market effect in Q2, fully offsetting Q1 impact**
- **FY.26 budget already met at H1**
- Launch of Optimum International, the new generation of Optimum portfolios, offering access to diversified investment portfolios through various thematic investment options and other portfolios with specialized management approaches
- Upscale investment solutions with focus on:
  - Advisory service for Private Banking clients supported by Piraeus Wealth Advisor, a Robo4platform
  - Robo advisory service for retail asset management (Piraeus brainy)
- Wide suite of Piraeus Bank and 3rd parties best of breed asset management including private markets products

Sustainability

Creating value through sustainable banking

Strengthening our sustainability performance

Sustainability embedded in the core strategy of Piraeus

- **Net Zero by 2050**
- **SBTi-validated** interim targets spanning up to 2030
- **13.5% reduction in Scope 2 (location-based) emissions (vs 2024)** and **100% renewable energy** use in Piraeus Bank's buildings
- **Low-carbon branch network:** 97% of branches energy-efficient by 2030
- **AI-driven digital transformation**
- **Responsible banking innovation** and **digitalization** through the launch of Snappi
- **Integrated sustainability governance & robust risk management** to mitigate ESG risks
- **Sustainability-linked remuneration:** by applying ESG criteria to performance evaluations and variable remuneration, consistent with strategic objectives

Value creation

- Reinforces controls and transparency that build investor confidence and long-term value
- Reduces exposure to risks
- Unlocks access to sustainable finance
- Enhances capital markets profile

Accelerating the transition and supporting our clients

€5.0bn in sustainable financing as of Jun.26 (c.€7.1bn by 2030) powering Greece's sustainable and inclusive growth

- **Renewable energy & efficiency**: wind, solar, energy upgrades, and net metering for houses and SMEs
- **€2.15bn** in Green Bond issuances, 100% allocation of total net proceeds by 2027, current allocation at 40%
- **Sustainability-linked loans**: embedding ESG targets into corporate lending
- **Agri-food transformation**: financing modern greenhouses, smart irrigation and energy autonomy
- **Youth & inclusion finance**: examples like Spiti 25 product, 1 Fund product and Snappi, promoting access to housing, long term savings, and financial literacy respectively

Value creation

- Diversifies revenues
- Attracts new clients
- Drives long-term profitability
- Sustainability improves perception by clients

Delivering positive social impact

Sustainability that delivers measurable benefits to people and society

- **Access & inclusion:** c.370 branches, c.1,500 ATMs, digital training for the silver age and customers with limited digital skills
- **Employee gender pay gap**: decrease from €4mn (2023) to below €2.0mn (2025) → on track for zero by 2027
- **Employee development**: 42.7hrs training per employee (2025) → 45hrs by 2030
- **EQUALL program**: 35,476 beneficiaries (youth, women, vulnerable groups) between 2022 to 2025
- **Cultural heritage**: 300k visitors annually across the Piraeus Cultural Foundation's 9-museum network, boosting local communities and economies
- **Recognition**: Euromoney's Europe's Best Bank for CSR, and Greece's for ESG (2026)

Value creation

- Builds trust with stakeholders
- Supports communities and local economies
- Strengthens talent pipeline
- Enhances the employer brand and makes Piraeus a more attractive place to work

Financed emissions sectoral decarbonization targets

Climate Transition Plan

Piraeus conducted a structured methodology approach for preparing the **financed emissions sectoral decarbonization objectives**. This methodology reflects the Bank's strategic objective to proactively manage climate transition risks, identify opportunities, and support clients in aligning with the evolving low-carbon economy. The methodology included the following exercises: portfolio analysis & materiality assessment, sector prioritization & pathways, top-down & bottom analysis and sectoral approach

Sector	Scope Emissions covered	Unit	Scenario / Pathway	Base Year	Baseline Value	2030 Target	Reduction (%)	Pathway Divergence 2030 (%)
Power Generation	Scope 1,2	$kgCO_2e$ / MWh	IEA NZE 2050 (2023 Update)	2024	223	140	- 37%	Below Pathway by 25%
Oil & Gas	Scope 1,2	$ktCO_2e$	IEA NZE 2050 (2023 Update)	2024	593	569	- 5%	Above Pathway by 33%
Cement	Scope 1,2	$kgCO_2e$ / t cement	IEA NZE 2050 (2023 Update)	2024	672	591	- 12%	Above Pathway by 26%
Iron & Steel	Scope 1,2	$kgCO_2e$ / t metal	IEA NZE 2050 (2023 Update)	2024	460	391	- 15%	Above Pathway by 5%
Aluminum	Scope 1,2	$kgCO_2e$ / t aluminum	IEA NZE 2050 (2023 Update)	2024	9,616	5,177	- 46%	Above Pathway by 18%
CRE	Scope 1,2	$kgCO_2e$ / m^2	CRE CRREM 1.5oC pathway	2024	54.7	27	- 51%	Alignment with Pathway

Based on the above, the initial focus of the **Climate Transition Plan** is directed towards the sectors, where targeted actions can deliver the greatest decarbonization impact. These sectors represent the core of the Bank's climate exposure and collectively account for the majority of its portfolio financed emissions

Confidentiality

For the purposes of this disclaimer, this presentation shall mean and include materials, including and together with any oral commentary or presentation and any question-and-answer session. By attending a meeting at which the presentation is made, or otherwise viewing or accessing the presentation, whether live or recorded, you will be deemed to have agreed to the present terms, conditions and restrictions and acknowledged that you understand the legal and regulatory sanctions attached to the misuse, disclosure or improper circulation of the presentation or any information contained herein. You also acknowledge that, if electronically transmitted and delivered, the presentation is confidential and intended only for you, and you agree that you will not forward, copy, download or publish the electronic transmission or the presentation to any other person.

Forward-looking statements and financial projections

Certain information or statements contained in this presentation or made in any meetings that are not statements of historical fact, including, without limitation, any statements preceded by, followed by or including words or phrases such as "targets," "believes," "expects," "aims," "intends," "may," "anticipates," "would," "could", "will", "might", "potential", "plan", "is designed to" or similar expressions or the negative thereof, constitute forward-looking statements, notwithstanding that such statements are not specifically identified.

Examples of forward-looking statements may include, among other things, statements relating to the Group's strategies, plans, objectives, initiatives and targets, its businesses, outlook, political, economic or other conditions in Greece or elsewhere, the Group's financial condition, results of operations, liquidity, capital resources and capital expenditures and development of markets and anticipated cost savings and synergies, as well as the intention and beliefs of the Group and/or its management or directors concerning the foregoing.

Forward-looking statements and financial projections are not guarantees of future performance and involve numerous known and unknown risks, uncertainties, both generic and specific, and assumptions which are difficult to predict and outside of the control of the Group.

We have based these assumptions on information currently available to us at the date the statements are made, and if any one or more of these assumptions turn out to be incorrect, actual outcomes and results may differ materially from what is expressed in such forward-looking statements. While we do not know what impact any such differences may have on our business, if there are such differences, our future results of operations and financial condition, could be materially adversely affected. Therefore, you should not place undue reliance on these forward-looking statements and financial projections.

This presentation also includes certain forward-looking business and financial targets. The targets have been prepared by management in good faith, on the basis of certain assumptions which management believes are reasonable. However, there can be no assurance that the facts on which the assumptions are based will not change and, consequently, our ability to achieve these targets may be affected by a number of changes and risks, which are beyond our control and some of which could have an immediate impact on our earnings and/or financial position. No representation is made as to the reasonableness of the assumptions made in this presentation or the accuracy or completeness of any modelling, scenario analysis or back-testing. We do not undertake any obligation to update these targets, and we reserve the right to change our targets from time to time as we respond to real operating, financial and other macro-economic conditions.

The Group has included certain non-IFRS financial measures in this presentation. These measurements may not be comparable to those of other companies. Reference to these non-IFRS financial measures should be considered in addition to IFRS financial measures but should not be considered a substitute for results that are presented in accordance with IFRS.
