

PRESS RELEASE

Integration of Geniki Bank systems in the Piraeus Bank IT systems unified environment

Piraeus Bank announces on the weekend of November 22nd and 23rd 2014 that Geniki Bank systems will be integrated in the Piraeus Bank IT systems unified environment.

During the integration works, the 1,850 ATMs network and the debit and credit card servicing systems will operate normally, and will serve customers' transactions.

On Friday noon, November 21st, the operation of internet banking serving Geniki Bank customers will cease. On Sunday afternoon, November 23rd, all customers will be served by the Piraeus Bank electronic banking platform (Winbank).

From Monday, November 24th 2014, all Geniki Bank customers will be fully served for all their transactions by the joint information system and the unified procedures, through any of the 830 Piraeus Bank branches.
